Esprecious

The taste of quality worldwide

BRAVILOR BONAMAT

Discover the barista in you! Make a perfect espresso or choose from one of the other coffee specialities. With the Esprecious you can prepare hot drinks of an exceptional class in a professional way based on freshly ground beans. Espresso like only the barista can make. A powerful performance is demanded from an espresso machine during the preparation. Therefore, only the best, strongest and most durable materials are used for the Esprecious.

Esprecious: Discover the barista in you!

- An innovative and really advanced coffee-making system
- Conveniently arranged touch screen
- Ceramic grinding disc
- Eco mode: intelligent energy-saving mode
- Outlet adjustable in height
- Separate hot water outlet
- Individual setting options
- Unique hot water system for less scaling
- Waste bin full indicator
- Drip tray full indicator
- Total and day counters
- No need for connection to the drain

■ Esprecious

The Esprecious is a comprehensive yet compact espresso machine of an excellent class with a conveniently arranged touch screen. You can simply set the desired variety and strength. Besides, because of its beautiful looks with the adjustable LED-lights around the display, the Esprecious fits in with any interior and with any house style. AND... it is really easy to clean!

◀ The divided canister in the Esprecious 21 and 22 offers room for two types of coffee beans.

■ Esprecious (11 & 21)

The Esprecious is available in various models. You can choose for a machine with 1 or 2 grinders, so you can make, for instance, espresso as well as other coffees from freshly-ground beans. The divided bean canister in the model with 2 grinders makes it possible to use two types of beans. The beans are freshly ground for each cup for optimum taste and a perfect aroma. All this for the ultimate coffee experience.

Esprecious 11

1 grinder - bean canister - 1 instant canister

Esprecious 21

2 grinders - divided bean canister - 1 instant canister

■ Esprecious (12 & 22)

The number of canisters for instant ingredients is variable as well. You can choose from 1 or 2 canisters. In this way you decide what drinks apart from espresso and/or coffee can be made with your Esprecious. Here think of cappuccino, café au lait, latte macchiato or hot chocolate. The programming includes a large number of recipes, enabling you to adjust the range of drinks offered to your specific situation.

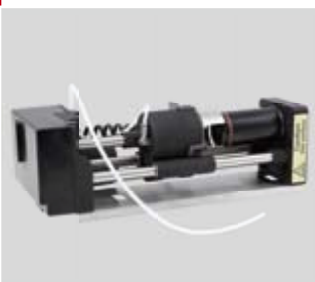

The outlet that can be adjusted in height, making sure that almost all cups can be put below the machine, provides a nice layer of cream on espresso and coffee. Hot water can be tapped through a separate outlet for tea, for example.

Esprecious 12

1 grinder - bean canister - 2 instant canisters

Esprecious 22

2 grinders - divided bean canister - 2 instant canisters

◀ The brewer developed by Bravilor Bonamat provides a delicious crema with a perfect in-cup quality.

◀ The programming can be completely adapted to your wishes using the clear touch screen.

The Esprecious contains a collection of pre-programmed recipes. You can simply indicate what ingredients you want to use at the time of installation. Then you can make your choice from the list of possible drinks. Of course, this includes the most common drinks like espresso, coffee, cappuccino, café au lait, latte macchiato and hot chocolate, but this is just a pick from the many possibilities.
